

QUALITY POLICY, ENVIRONMENTAL POLICY, HEALTH & SAFETY POLICY STATEMENT

Albion Environmental Limited ("ALBION") are a Safety Quality Environmental and Training Consultancy, formed in 2003 whose focus is to provide effective and efficient solutions for both private and public sector clients.

ALBION is fully committed to achieving and maintaining the highest standards in all areas of our business. We aim to integrate Safety, Health, Protection of the Environment and Quality of Service within all aspects of our work. This is recognised to be in the interest of all Albion Stakeholders including, employees, clients, subcontractors, suppliers, enforcement agencies, the public and future generations.

Accordingly, ALBION is committed to: -

- (a) *The continuous use of planned, effective and systematically documented processes, which identify measure and achieve quality whilst complying with the contractual requirements and expectations of our clients.*
- (b) *Understand and meet in full, the standards imposed through health, safety and environmental legislation, as well as our commitment to continuous improvement, in line with our BMS, developed to the requirements of OHSAS 18001: 2007, ISO 9001:2008 and ISO14001:2004. We are committed to be fully compliant with all Health, Safety and Environmental legislation and continually review both the risks associated with our processes and the development of new, and changes to, legislation, regulations, codes of practice, etc.*
- (c) *Work within the framework of an BMS to achieve our business goals. This includes the identification and evaluation of aspects, impacts and risks to establish and continually review our policies, objectives and targets. We strive to prevent accidents and pollution by identifying risks and setting performance standards appropriate with best practice. Our policies, objectives and targets are documented, implemented and available to all interested parties including the public.*
- (d) *Advise and encourage employees, clients, designers, sub-contractors and suppliers to ensure that sound health, safety, quality and environmental performance are established and criteria are taken into account in the design, selection and construction of new sites and the demolition of old.*
- (e) *Review annually at Management Review Meetings, all aspects of the BMS including the policies, objectives and targets to assess continuing suitability and achieve measured continual improvement.*
- (f) *Communicate Albion's commitment to the reduction of our environmental impact by providing instruction and training at all levels within the company to encourage, motivate and implement Environmental Best Practice.*
